VOL I

DECEMBER 2020

New Shoots

The Ambience Newsletter

My Dear Ambience Family

Wishing all of you a Happy and Healthy 2021.

Now that 2020 is behind us let us look at some of the learnings gained during this most unprecedented time. I think one thing that has been amply clear is how precious each moment of life is. We cannot take anything for granted. So as we begin our journey with fresh enthusiasm and resolve let us cherish each moment and do our best so that we have no regrets. If you have someone you haven't spoken to for a long time pick up the phone and do so immediately. If you want to start something new the time is now. So let us make a fresh departure this year and live every moment to the fullest.

We are sharing with you some memorable moments from last month. I also want to thank each one of you for all your hard work and perseverance displayed through the year.

Take care, stay safe and stay blessed!

"AMBIENCE LAURELS"

Avantika Choudhary of Grade 8 for **winning** International online competition in mathematics for classes 1-12 at BRICSMATH.COM+

Eva Dubey of KG for securing **3rd** position in "Spotlight- Lead the stage" at GEMS Modern Academy

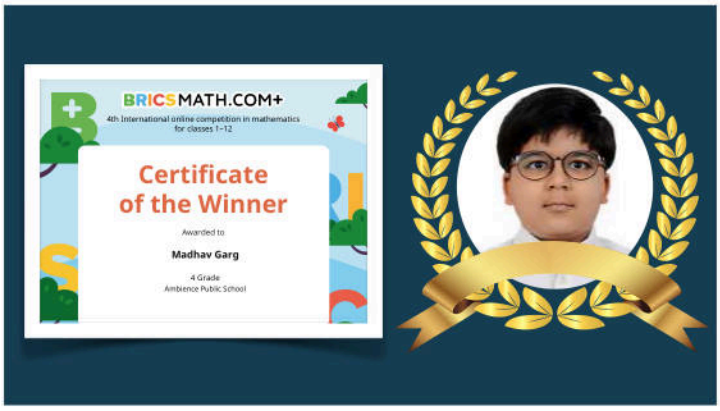

Ms.Megha Saraf for successfully completing "3030 STEM Program" season 1"

Art is not just about beauty and aesthetics it is a great medium to teach children about various concepts.

Learners of Ambience School Gurugram explored Rotational symmetry and created their own Deck of cards. It was a great way to give our learners choice - as they decided which picture card they want to create while unleashing their creativity. A fun way to understand symmetry!!

Our learners at their creative best !

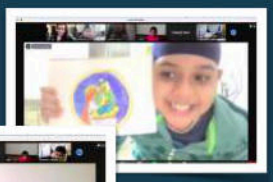

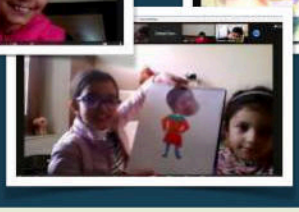

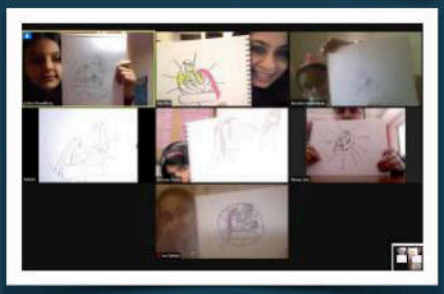

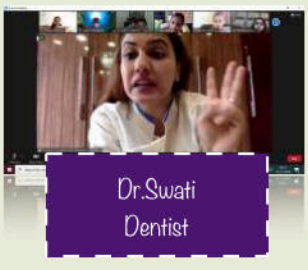

Grade 2 : Learning from Experts

Ms.Ruchika Garg
Reporter

Dr.Piyush
Doctor

Mr.Ranjan
Civil Engineer

Dr.Swati
Dentist

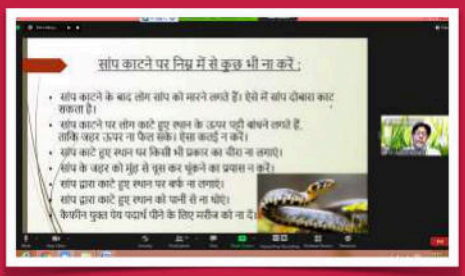

Mr.Khandelwal
Chief Investment &
Strategy Officer

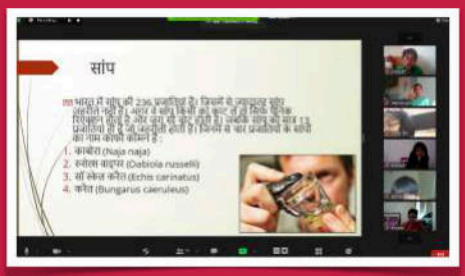

Grade 3 : Learners had an interesting interactive session with Dr. Ajay Choudhary on First Aid for snake bite as a follow up of the lesson - 'जब मुझे साँप ने काटा'

Grade 3 : "I hear and I forget, I see and I remember. I do and I understand"
Grade3 creating their own globes.

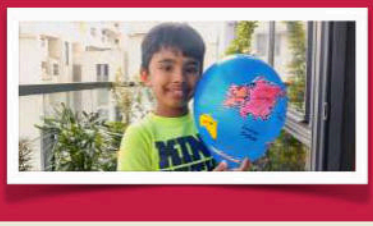

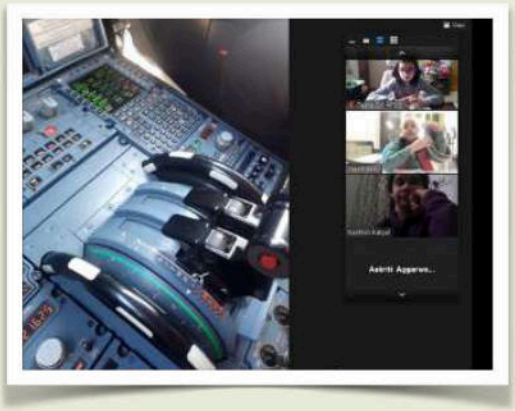

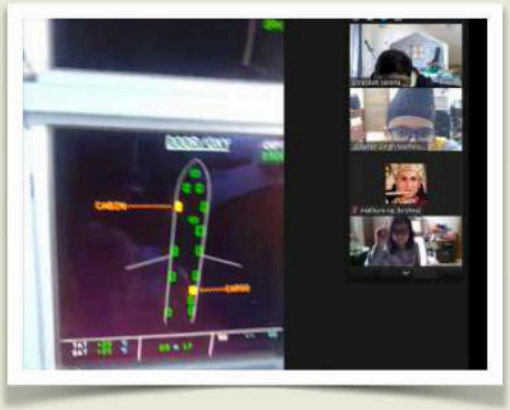

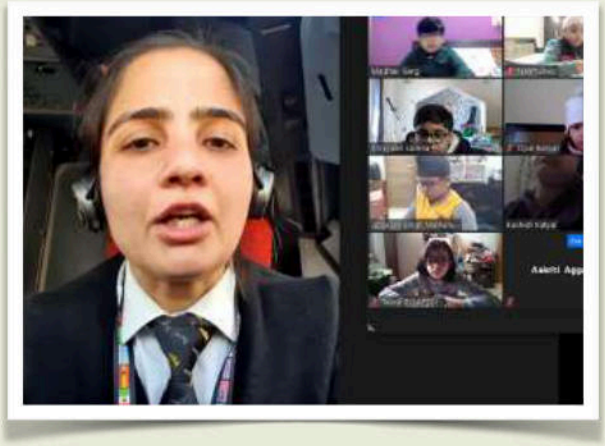

Grade 4 : On a virtual tour of an airplane with Captain Gill

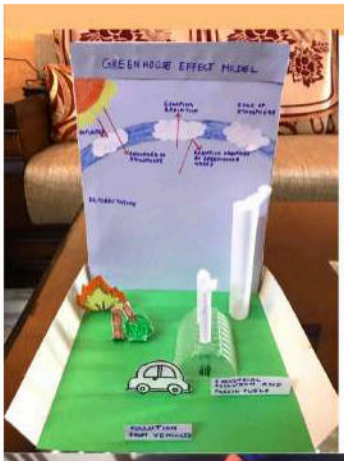

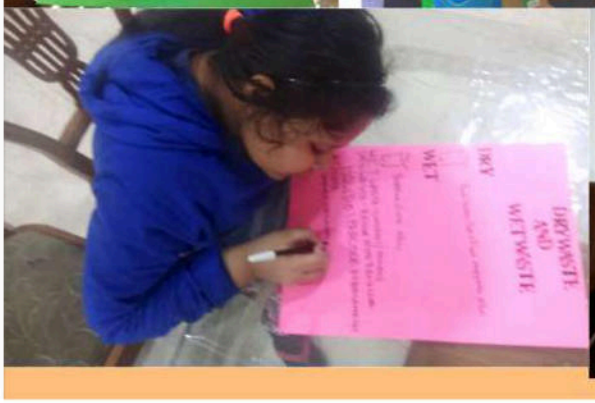

Captain Gill took Grade 4 learners on a live airplane tour. The learners were fascinated as she explained the various parts and instruments installed in a cockpit. They had a look at how the cargo is loaded on an aircraft and the various preparations done before the flight takes off. She later also came to the class and answered lots of queries. She explained the concept of Universal time, tail wind and head wind, long haul and short haul flights and much more.

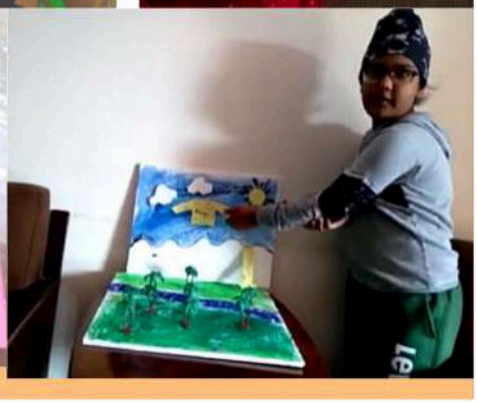

Grade 5 : Our very own Eco Warriors

"If you are determined to learn, no one can stop you". Grade 5 learners created models and described how the increase in greenhouse gases contribute to global warming. The young minds explored different ways to control the gas emission and actually took it a step forward by creating posters for their society. It was evident that they not only understood the concepts well, but acted like young environment warriors to make this world a better place.

Grade 6 : Grade 6 learners traced the life of king Ashoka in their History lesson

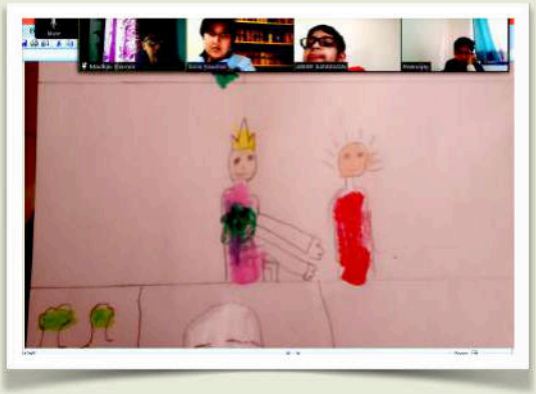

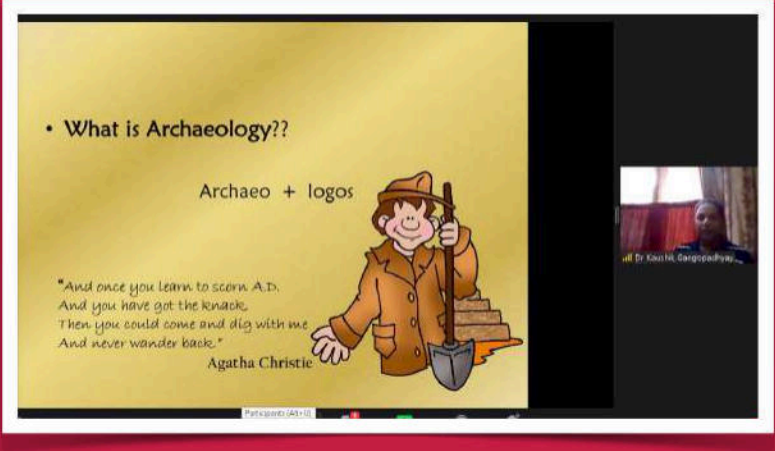

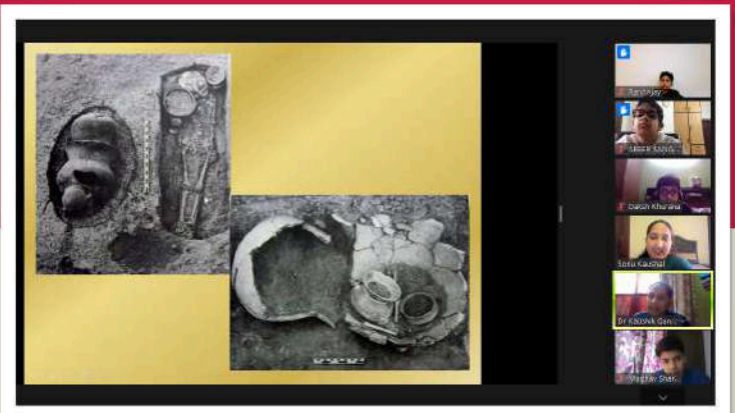

Expert speak

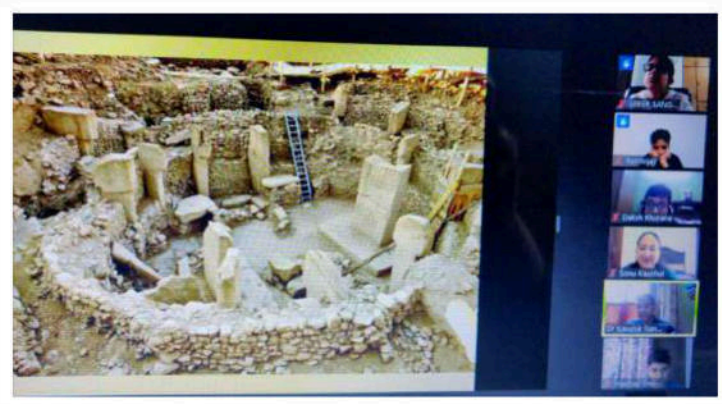

Grade 6-8 : A virtual session on 'What is Archaeology' and 'What is being an Archaeologist' was conducted by Dr. Kaushik Gangopadhyay, Head of the Department of Archaeology , University of Calcutta for students of grades 6, 7 and 8.

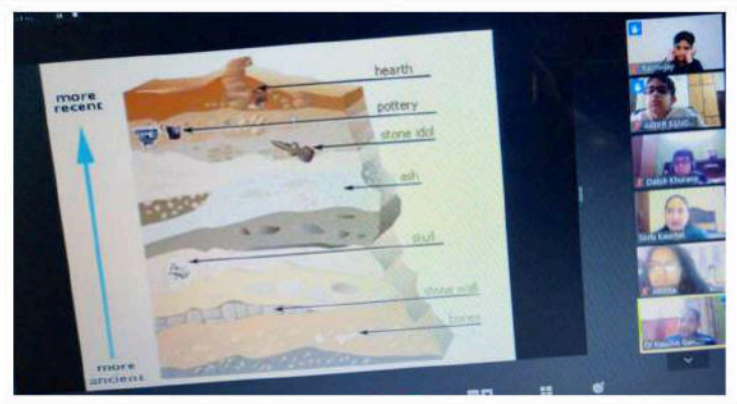

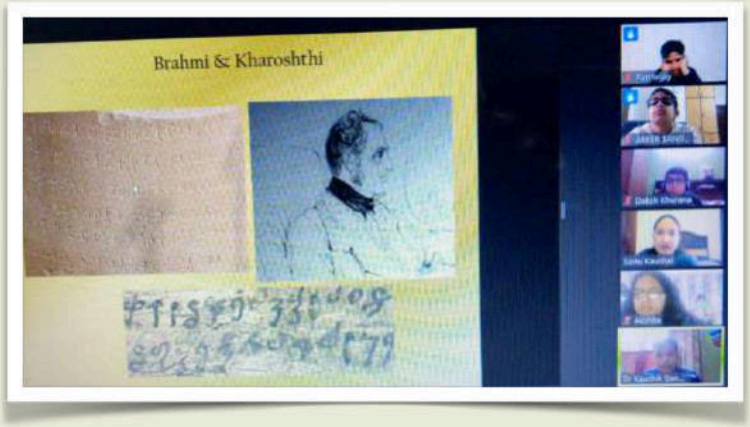

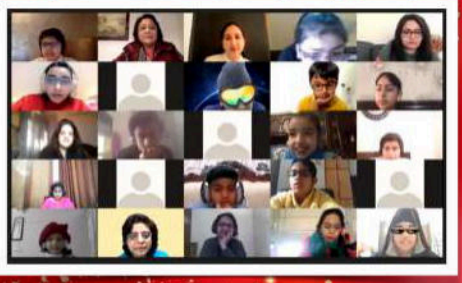

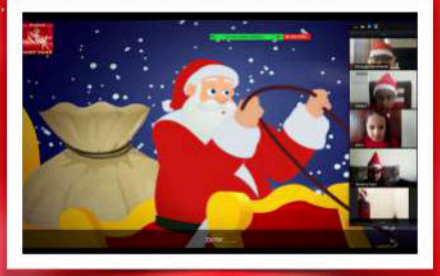

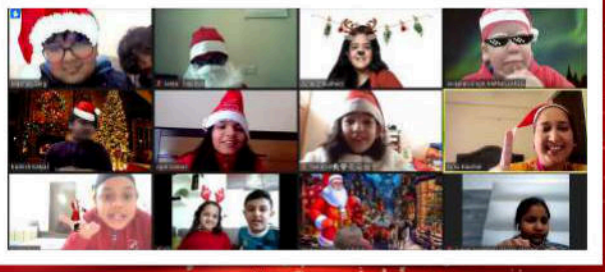

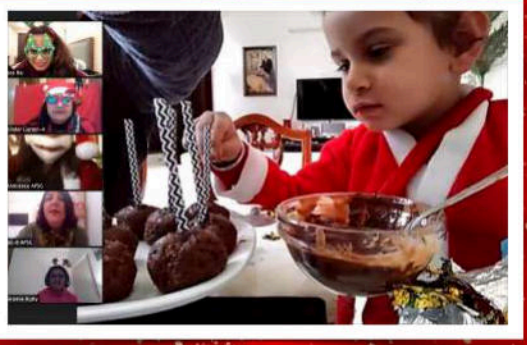

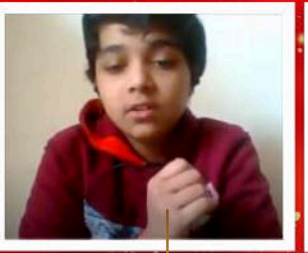

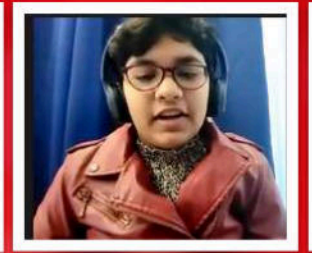

Our Christmas assemblies & parties !!

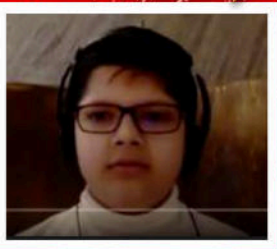

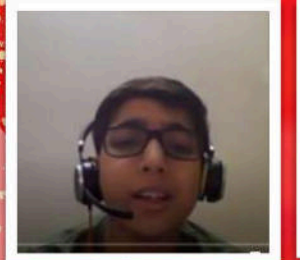

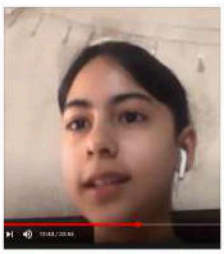

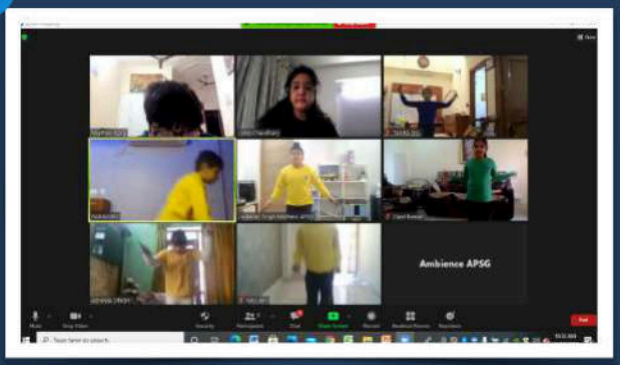

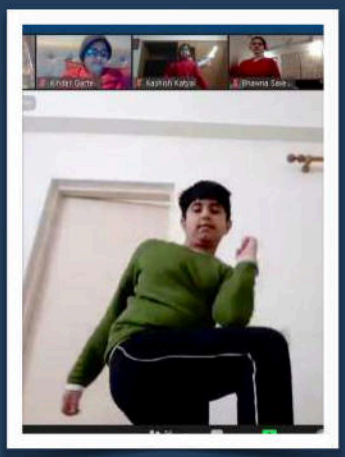

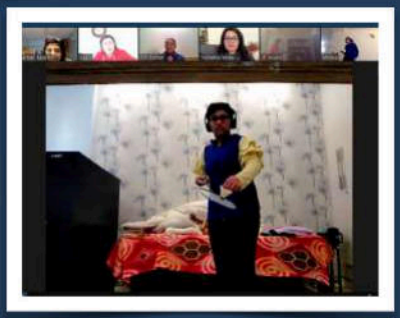

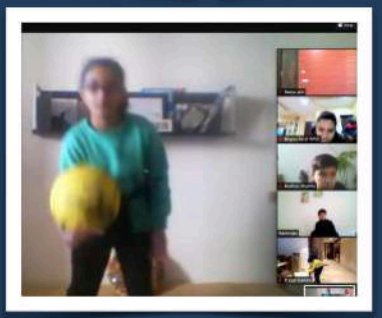

A Glimpse of Sports Day celebration !!
