VOL I JULY 2020

New Shoots

The Ambience Newsletter

FROM THE PRINCIPAL'S DESK

Dear Children and Parents,

The new academic year began somewhat differently from how we had planned and anticipated it. Faced with the challenge of physical closure of school our entire School Community –our dear children, parents and staff came together and proved that there are no challenges that can't be surmounted if we work together as a team. For this my deepest gratitude to each one.

This time of crisis has given us an opportunity to challenge our own self-imposed limitations and come out right on top! I say this when I see the way everyone is working together and producing their best possible work. There can be a lock down outside but no one can lock our Spirit and inner resolve and this is what each one of you have proved through your tireless effort to ensure that learning does not stop.

I salute this never say die Spirit and to celebrate it and the extraordinary work done during this time we have decided to start a School Newsletter 'New Shoots' which will provide our children, parents and staff a platform to show case their work.

Enjoy our very first issue, stay safe and stay blessed.

Sincerely

Anuradha Rai

"AN IMPORTANT THING IS THAT YOU CONCENTRATE ON DEVELOPING YOURSELF. WHATEVER OTHERS MAY SAY OR DO, THOSE WHO HAVE ESTABLISHED THEIR OWN SOLID IDENTITY WILL TRIUMPH IN THE END."

Good Timber

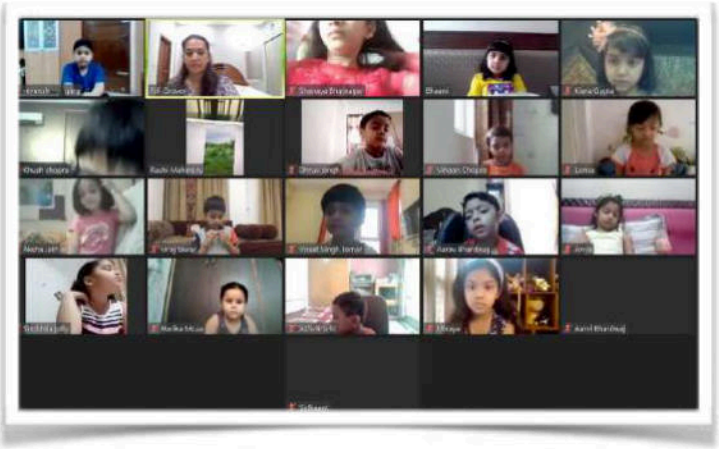

The tree that never had to fight
For sun and sky and air and light,
But stood out in the open plain
And always got its share of rain,
Never became a forest king
But lived and died a scrubby thing.
The man who never had to toil
To gain and farm his patch of soil,
Who never had to win his share
Of sun and sky and light and air,
Never became a manly man
But lived and died as he began.
Good timber does not grow with ease,
The stronger wind, the stronger trees,
The further sky, the greater length,
The more the storm, the more the strength.
By sun and cold, by rain and snow,
In trees and men good timbers grow.
Where thickest lies the forest growth
We find the patriarchs of both.
And they hold counsel with the stars
Whose broken branches show the scars
Of many winds and much of strife.
This is the common law of life.

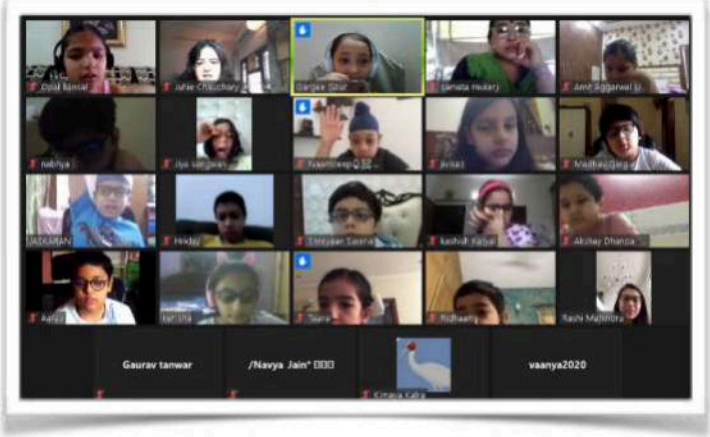

-Douglas Malloch

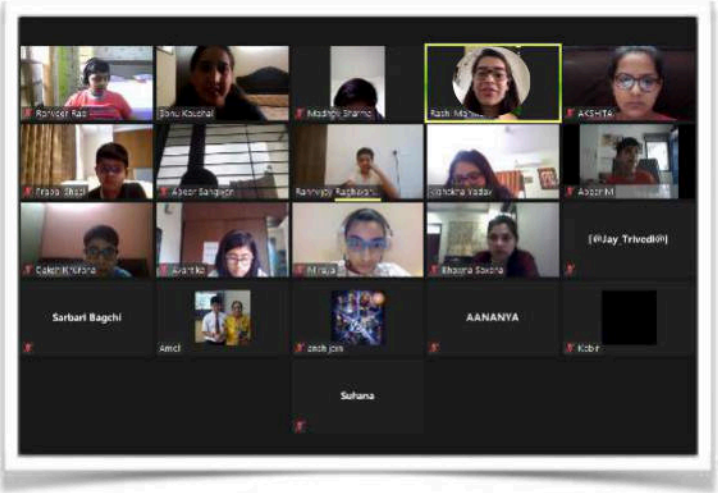

Aman Foundation

Working Towards a Green future

Our learners of Grade 1-8, had an interactive session with Ms. Rashi of Aman Foundation. She talked to the children about the need to grow trees, the importance of not only planting trees but also taking care of them. She explained the extensive work done by the foundation to grow trees in Gurugram. Students learnt how recycled water can be used to irrigate the trees. Ms. Rashi patiently answered all the questions asked by our inquisitive learners. A delightful and informative session!

"AMBIENCE LAURELS"

Amyra Saini of Grade 2 won the FIRST prize in 1st Zamit International Speaking Skill Competition

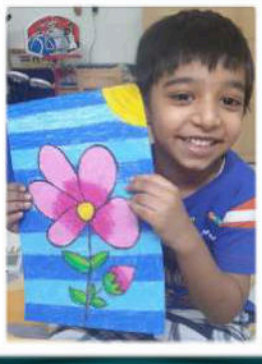

Siddharth Sanjith of Grade 4 won the FIRST prize in the "Speech Craft", an inter school Elocution Competition at Tagore international School ,Vasant Vihar.

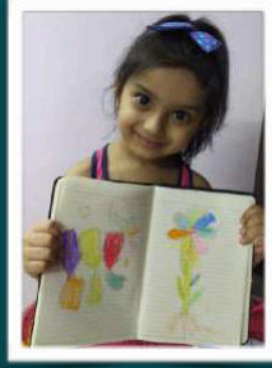

Kimaya Kalra of Grade 5 won the consolation prize in the "My Story…. My way" event, at Tagore international School ,Vasant Vihar.

"What is the treasure of youth? It is struggle; it is hard work. Unless you struggle, you cannot truly be strong.

Grade 6 Poets meet!!

Made out of imagination

Abeer M

Have you seen a lion?
So hairy but the king of the jungle
I growl and eat humans
and eat a few animals too...
I remember when I was a baby lion
my parents would love me a lot...
but now i have grown up
to begin my own life.

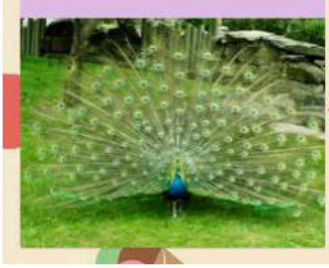

Madhav

Have you seen a snake?
When creepy crowley on the way
Yellow , green, black and blue color and model may vary as say so
No sound he/she hears the vibration bring over where I avoid creepy crowley as they fell me terrifying and petrafing. It wiggles-woggles all over with sound hear hiss hiss oh no it is over there

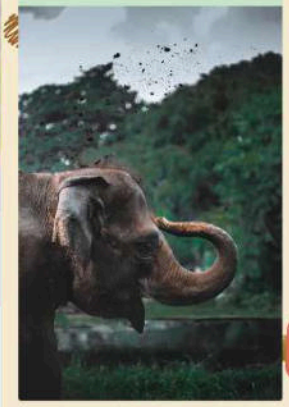

Ansh

He dance in rain
Without pain
His feather spread
Like butter on bread
His colors lie
Like rainbow in sky
When fly
He don`t shy
He don`t have wing
But he does sing

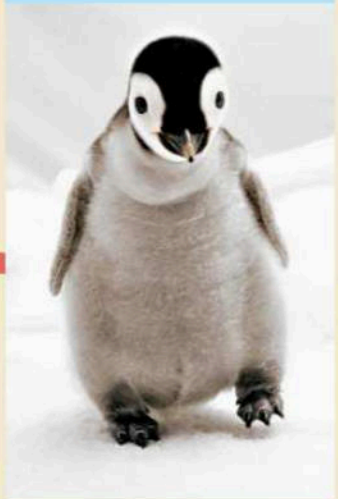

Abeer Sangwan

Have you ever seen an elephant?
Trembles the Earth as it proceeds towards the water, forest and land
Loves bananas, pineapple and grass
Bathing with Water and sand
rough exterior, tender at heart will be your friend , extend your hand

Jay Trivedi

I'm a little penguin
Black and white
stout and fluffy
what a sight but
I can't fly
but i love to swim
so I'll waddle to the water
and drive right in to the water

Rannvijay

Tiger is a magnificieant animal
He runs very fast
he has beautifull stripes
He is brave
he hunt his pray beautifuly
he has a beautifull camouflage

prabal sheel

From far lands we catch sight of a ashtoishing tiger

Which for all is a lighting-quick assassinator

Its in the cat family but more hostile than others

and for a motherload of countrys its the national animal

Teachers Speak !

THE BEST THING I LEARNED DURING LOCKDOWN

I had no idea what was in store for me
Life seemed all beautiful and filled with glee
Walking around the parks and garden, was no big deal
I often wore my favourite colour, which happens to be teal
Then came the Niggly Wiggly virus, which was here to stay
I heard everyone telling.., wash your hands , wear a mask, these will keep the virus at bay!
Life went topsy turvy, I did not know what to do
The streets, gardens and parks, well almost everything looked blue
A virus cannot bog me down, I said to myself
I looked left, I looked right trying to find out the happy elf
Be patient, mom said plan your day well
We have to challenge ourselves and come out of our shells
That day, I remember, it had drizzled, rained and poured
Mother Nature cried her heart out, and the sky roared
I learnt one thing that day, to be grateful for what I have
Reboot my life with a clarion call to humanity
To be content and happy, to be patient and not to lose sanity
I vouch to preserve the environment with everyone's right intact
We shall overcome this too, make inroads for happiness
Oh ! that's not a hypothesis, but a FACT!

-Samata Mukerji
