Message from the Headmistress

Dear Learners,

We are already in October, half way through our academic year! As we progress, the flavour over the next couple of the months is trips, excursions, fun and the festive season. Well-deserved breather after your assessment and feedback sessions. Remember, each of you is unique, and we are both delighted and honoured to be part of your journey of self-discovery and adventure.

As your new Headmistress, I've had a chance to settle in and reflect on my teaching experiences in the UK and India. I truly believe our school is more than just a place of learning; it's a vibrant community where we support each other in growing, exploring, and uncovering our unique talents. Together, we're creating an environment where curiosity thrives—where you feel empowered to ask questions, share your ideas, and embrace new challenges with enthusiasm.

I'd like to share a few thoughts to make learning even better:

- Nothing ventured, nothing gained

Step out of your comfort zone! Whether in sports or academics, you might surprise yourself. Remember, getting a "no" is far better than not trying at all.

- Believe in yourself

Each of you has the power to make a difference—not just in your life but in the lives of others. I believe in your potential to achieve greatness, and you should too!

- There's no such thing as a bad question

Mistakes are part of learning. What matters is that you try, keep pushing forward, and adopt a "done and dusted" approach to your goals.

- Seek help

Remember, you can only be good to others if you take care of yourself. Don't hesitate to reach out to your teachers—nothing is too trivial. If something bothers you, it's worth discussing, and I'm sure we can find a solution together.

- Have fun (but not at the cost of others)

Every day is a new opportunity to learn and grow. Whether in the classroom, on the playground, or during any activities, strive to be the best version of yourself and enjoy every moment.

I am excited to get to know each of you better and can't wait for all that this year holds. Together, we will achieve amazing things, and I trust you to make it extraordinary!

"The future belongs to those who believe in the beauty of their dreams." —Eleanor Roosevelt

Warm regards,
Arushi Kaundal
-Headmistress

Awards and Recognition

Accolades won by senior wing learners- Siddhi Khurana, Samiksha Kaushik and Madhav Sharma at MUN in Ambience, Delhi

Our talented learners won 2nd prize in the folk dance competition at Rangbahar event held in Ambience Public School, Delhi. Our learners dazzled the audience with a mesmerizing performance of Rajasthani folk dance.

Avani , Grade IX, won two medals (silver and bronze). Bronze for best all rounder in Haryana, another silver team medal and runner's up trophy as Gurugram bagged second place in Khelo Mahakumbh - open age category gymnastics competition

Awards and Recognition

Iriana Sachdeva and VeeraAhlawat, Grade 1 won the first prize in Interschool Dance competition at Amercian Public School

Jaskaran Singh Matharu, Grade 8 won the Bronze medal for Roller Skating Championship (Inline Skating Hockey) He earned a spot to represent Gurgaon at the Haryana State Roller Skating Championship.

Ashima, Grade 7 has been selected to compete in the Haryana State Swimming Championship 2024! Gold medal in the relay at the SGFI State Level Competition

Samagra, Grade 5, won gold medal CBSE North Zone 2 Roller Skating Championship
He won:
Gold in the 500-meter rink event
Gold in the 1-lap road race
Silver in the 1500-meter road race
at the SGFI State in Rohtak for the Under-11 category.

Dhriti Singh, Grade 3 has won the IGU North Zone Sub-Junior Golf Championship

हिंदी दिवस

इ ख आ र

'हिंदी दिवस' के उपलक्ष्य में एम्बिएंस पब्लिक स्कूल, गुरुग्राम में अंतर्सदनीय 'वाक् चातुर्य' प्रतियोगिता का आयोजन किया गया जिसमें | जिसमें कक्षा 9 से 12 तक के विद्यार्थियों ने उत्साहपूर्वक भाग लिया। प्रतियोगिता का विषय 'नशीले पदार्थों का सेवन भविष्य को चुनौती' व 'फैशन और आज का युवा वर्ग' था। छात्रों ने अपने विचारों को स्पष्ट और प्रभावी ढंग से व्यक्त किया। प्रधानाचार्या श्रीमती गरिमा पांडे ने छात्रों को वाक् चातुर्य के महत्त्व को समझाते हुए, उसके कौशलों को विकसित करने के लिए प्रेरित किया |

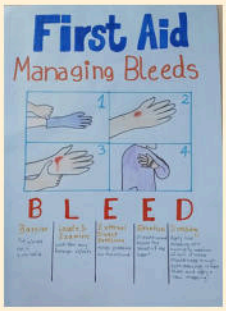

As a part of their SEWA project, learners of grade IX, gave a skit presentation on first aid, in order to create awareness among the young learners of our school. They prepared posters, first aid boxes, a PPT , Quiz and worksheets, They gave the presentation to grade 1 and 2 learners.

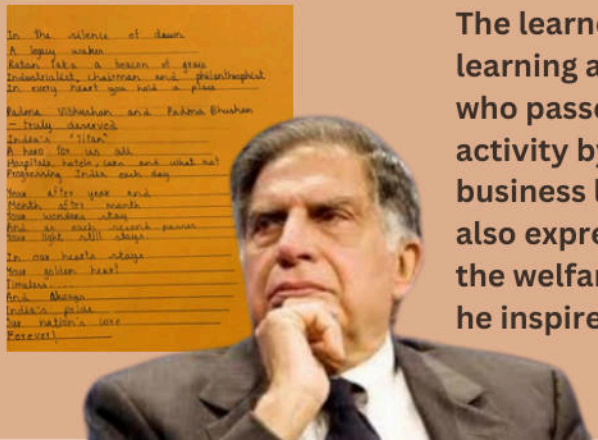

An ode to the legend

The learners of grade 8 engaged in a heartfelt discussion after learning about the passing of the iconic industrialist, Ratan Tata, who passed away in Bombay last night. The learners began the activity by reflecting on his immense contributions to India's business landscape, philanthropy, and innovation. The learners also expressed their admiration for his humility and dedication to the welfare of society, despite his global success. They shared how he inspired them with his visionary leadership and compassion.

"Adventure Awaits: A Fun-Filled Pre-Primary Excursion!"

Our pre-primary learners recently embarked on an exciting adventure to the Delhi Zoo for their excursion, celebrating the culmination of their inquiry project on "Fauna." This enriching experience allowed them to explore a variety of animals, birds, and reptiles, bringing their classroom learnings to life. As they wandered through the zoo, our learners observed creatures discussing their unique habitats and the fascinating features of their skins—ranging from soft fur to shiny scales and vibrant feathers. The enthusiasm was palpable as they shared insights and asked questions, deepening their understanding of the animal kingdom. The joy of discovery was evident, making it a memorable day for everyone involved!

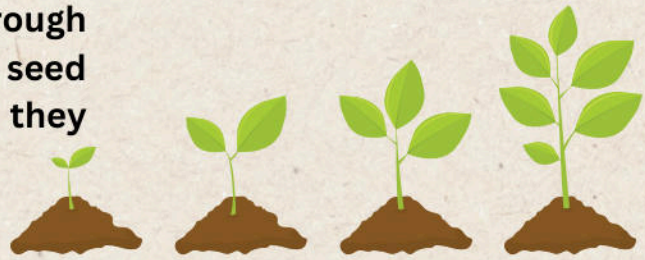

Understanding Sprouting Conditions

Learner's investigated the requirements for seed germination by growing sprouts in class. Through observation, they discovered the wonders of seed development. To reinforce healthy choices, they prepared a tasty sprout chat.

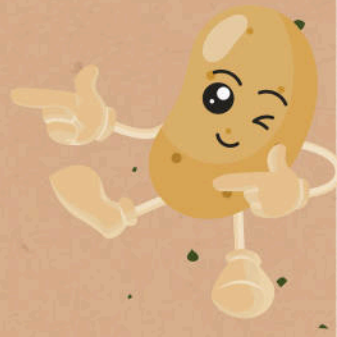

Exploring Starch in Potato: Hands-on Experiment

Learner's investigated the presence of starch in potatoes by applying iodine solution. The resulting brown coloration confirmed starch existence, illustrating a key scientific principle.

Investigating Plant Water Transport

Learner's conducted an experiment using colored water and a white flower. The flower's color change illustrated water movement through the stem, highlighting translocation from stem to petals.

Exploring Transpiration: A Polythene Bag Experiment

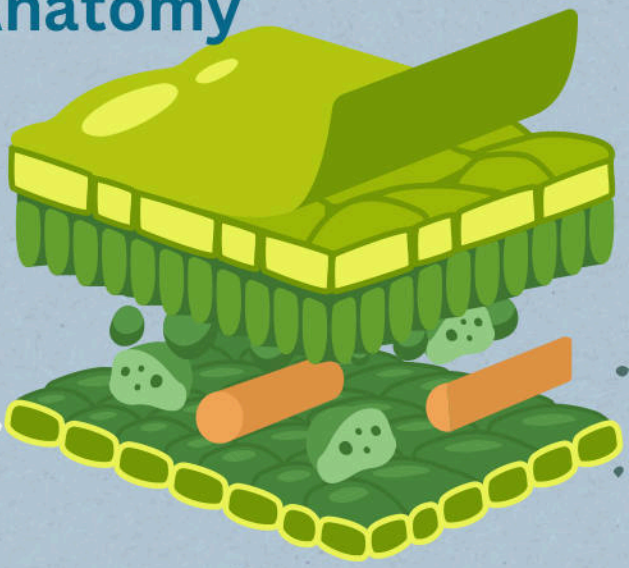

Learners covered a green leaf with polythene bag and observed water droplets forming inside after few hours, demonstrating transpiration.

Exploring Leaf Anatomy

Through hands-on observation of real leaves, learner's identified and learned about the different parts, including veins, midrib, petiole, and blade.

Pre Primary Assembly

The nursery assembly was an enchanting event where our learners brought the magic of rainbows to life. The theme was about how rainbows are formed, framed beautifully through the story of friendship between the sun and water droplets. Each child represented a colour of the rainbow. As they introduced themselves, they showed what each colour signifies.

The assembly ended with the children gathering in a 'rainbow arc', smiling hand-in-hand to symbolize unity and friendship.

HALLOWEEN PARTY !!!

Our pre-primary learners had a spook-tacular time celebrating Halloween! Dressed in their creative costumes, they danced the day away and participated in a thrilling "Trick or Treat" adventure. The little monsters, ghosts, and superheroes filled the school with laughter and excitement, collecting treats and making memories.

DIWALI

Our learners celebrated Diwali with great fervours! They came dressed up in traditional attire, participated in a ramp walk, crafted festive items,made their own rangolis, and danced with great enthusiasm. They also learned about the significance of Diwali, discovering the triumph of light over darkness. The day was filled with laughter, fun, and festive spirit!

Learners of Grade 6 led a remarkable Diwali special assembly, celebrating the festival of lights with immense enthusiasm and creativity. Through a beautiful blend of skits, dance dramas, and songs, they illustrated the significance of each of the five special days of Diwali – Dhanteras, Narak Chaturdashi, Diwali, Govardhan Pooja, and Bhai Dooj.

Our Budding Authors

Khushi Srivasatva of Grade 8 won The 21st Century Emily Dickinson Award for her book on poems which she wrote on her own. This distinguished honour is a testament to her remarkable talent and the brilliance of her literary creation. The award acknowledges her literary prowess and opens doors to recognition.

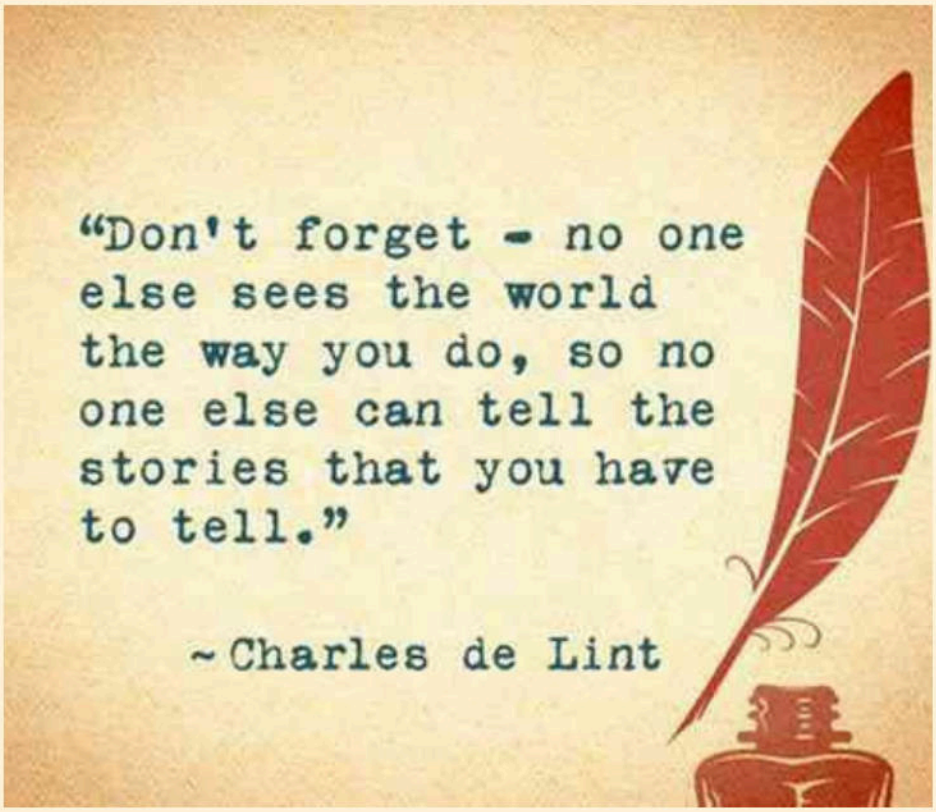

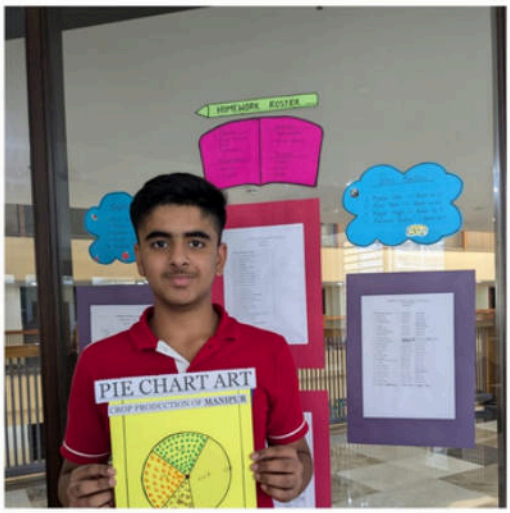

Aksha Jain, Grade 5 wrote a book, The Chocolate Man and published on Bribooks platform

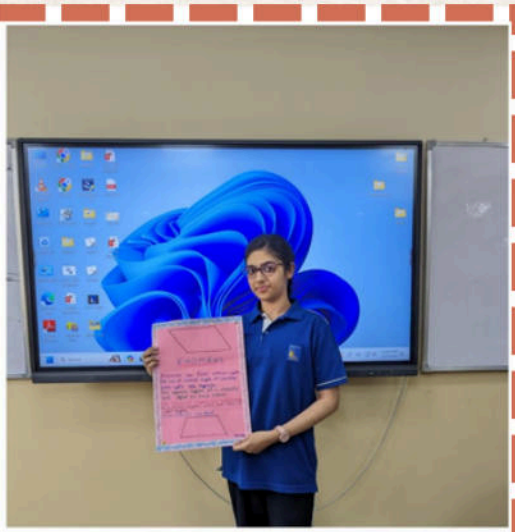

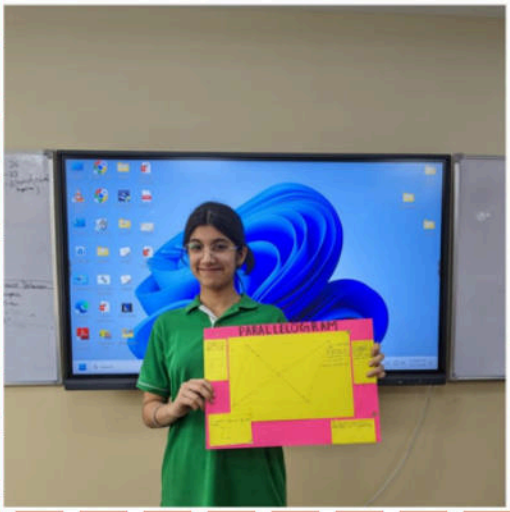

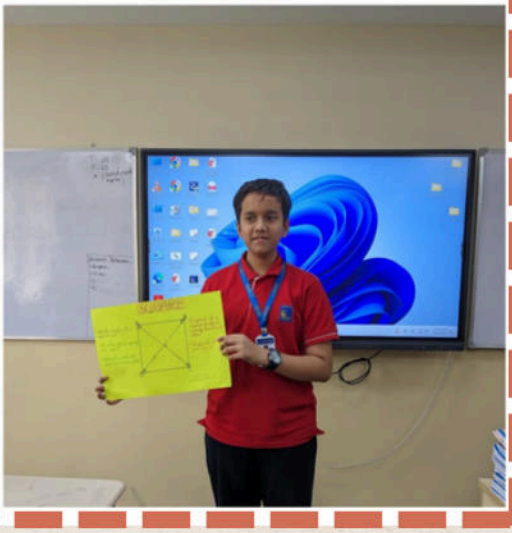

Grade 8 learners participated in engaging interdisciplinary activities that combined mathematical skills with creative expression, fostering both analytical thinking and cultural awareness. One activity involved creating pie charts to represent the crop production of Manipur, where students applied math skills while incorporating artistic elements into their charts. This approach allowed them to deepen their connection to Manipur's agriculture and geography, encouraging exploration of regional crops while visually presenting their findings.

In another exercise, students created charts to represent the properties of various types of quadrilaterals and presented their explanations in class. This task enabled them to organize mathematical information visually, enhancing their understanding and confidence as they shared these concepts with their peers. Both activities demonstrated the power of integrating analytical and creative skills, making learning both meaningful and enjoyable.

Trip to Jaipur

LOS ANGELES

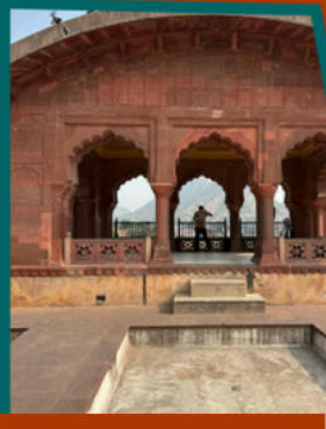

A SUNNY MORNING

The Sun is glowing up so high,
A golden bell in the clear blue sky.
It wakes the flowers with its light,
And makes the morning feel so bright.

The birds sing sweetly in the air,
The gentle breeze is everywhere.
A sunny day is so fresh and new,
Is perfect to spend time with you!

- Bhaani V-A

NATURE'S EMBRACE

The birds soaring high
The rivers running by
The mountains and trees so tall
Laying down on the soft grass and gazing at the stars
Away from the city and the revving of the cars
Underneath the golden sun in the open skies
Making daisy chains, chasing butterflies
As I feel the gentle breeze on my face
It's like being wrapped up in nature's embrace

- Eva Dubbey IV-A

THE HIKE

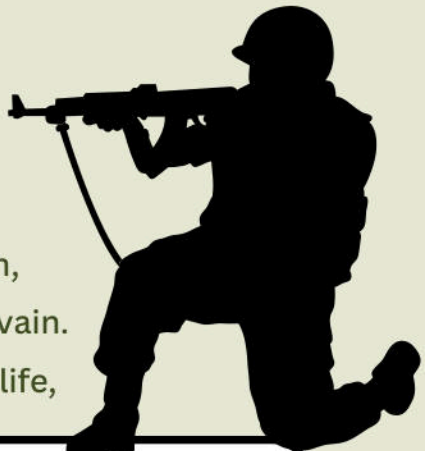

It was a windy morning. The rough walls of the dilapidated house we had to go through to reach over the hill rubbed against my already sore skin. When we came out, I was thankful for my warm sweater and scarf, as the wind beat against me. We started our trek at noon, and by twilight, it had started to snow. We made a tent and munched on spicy, crunchy munchies, momos, and pizza and ate our hot mug cake outside, watching the shimmering sunset. We sat in silence for a moment, watching the mesmerizing view . We could see the entire city from here and the mountains further north. But the most special sight was the cherry tree near our house. By the time we came down, we could see the sky clearing as the stars coming out, and I knew the day had ended.

AADHIRA 6-A

IS WAR THE ANSWER?

The screams of terror echoed from the TV NEWS,
Showing the refugee camps that were full of lines & ques.
There were people who have been hungry for days & weeks,
The screen showed their agony, their tears-stained cheeks.
Saw a crying mother holding her injured child,
It was hard to tell if his injuries were heavy or mild.
She was pleading for help from all the passer byes,
Yet no one paid heed to it in all that hues & cries.
What GOOD is WAR when all it brings is destruction & pain,
Targeting cities, killing people, conquering land is simply vain.
Often, I wonder to myself must we really torture another life,
Just to settle any petty or huge strife.

SHIVANSH SINGH 5- A

THE KIND WIZARD

Once upon a time there lived a couple, they were too poor and had to steal food from the Wizard's garden. One day when husband caught by the Wizard. He was scared to see the Wizard, he said to the Wizard "I am sorry to steal your food". The Wizard was angry and said "Why did you steal my food?" The husband was scared and said "My wife is pregnant, so I have to steal, if I don't my wife will throw me out." The Wizard understood his situation and let the husband take the food.

Moral: We should be empathetic towards others.
