VOL I SEPTEMBER 2020

New Shoots

The Ambience Newsletter

Dear Children,

We are half way down as far as this academic year is concerned. However this year we have achieved some significant milestones, much more than we do during the course of a year. Adapting quickly to the changed circumstances and accepting the disruption caused by the pandemic in your stride, you have displayed exceptional tenacity and determination.

Your teachers too have worked tirelessly to make your learning experiences enjoyable and fruitful. For that let us also express our gratitude to them.

I feel proud to see you responding with equal enthusiasm, be it the flipped classroom where some of you took ownership of not just your own learning but extended it to your peers too or the quiz prepared by you to question some historical characters; putting them in the hot seat, it has been a great learning curve.

Thank you for all your sincere efforts. It inspires us to work harder. Let us continue to learn with even more vigour in the second term and push our self-limiting boundaries.

Your parents have been a big support during this time, so please convey my gratitude and best wishes to them.

Godbless stay safe!

-Anuradha Rai (Principal)

“AMBIENCE LAURELS”

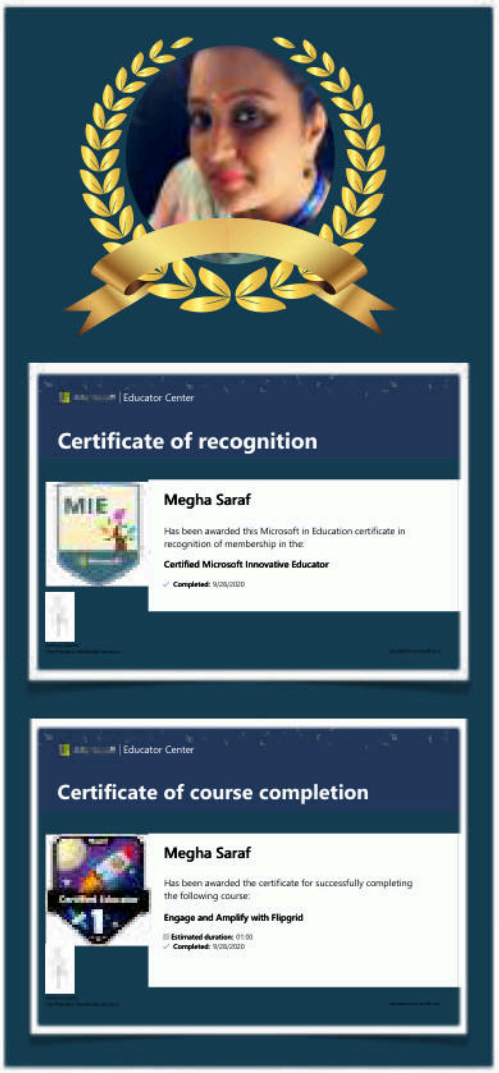

Shivansh Saxena of Grade 2 for exceptional skills and outcomes in game development with deep UI/UX Interface.

NEP 2020 - Demystified !

A workshop was conducted on National Education Policy (NEP) 2020 by Co-Scholastic team for all teachers on two consecutive days. It aimed to apprise teachers about the new features being proposed in the education structure as per the new policy. It was a fun filled and interactive session and everyone thoroughly enjoyed being a part of it. At our school, we are already following most of the points being shared in the policy and now working upon adding the new features as proposed by NEP.

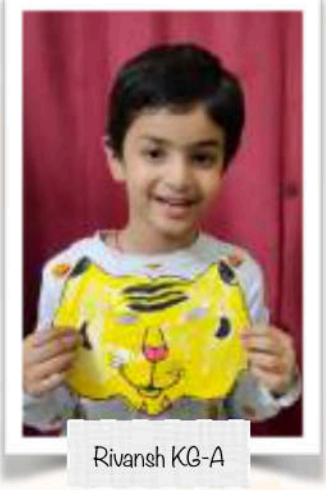

Hands on activity

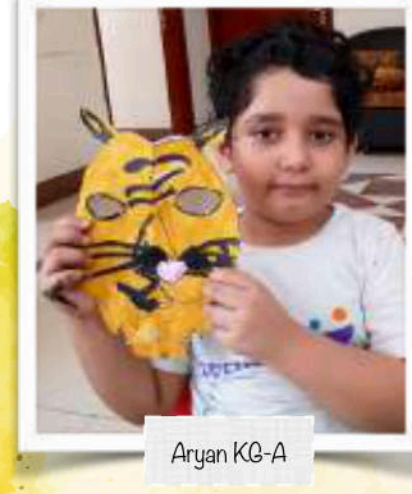

We are a school with culture of learning, so everyone comes ready to learn each day .

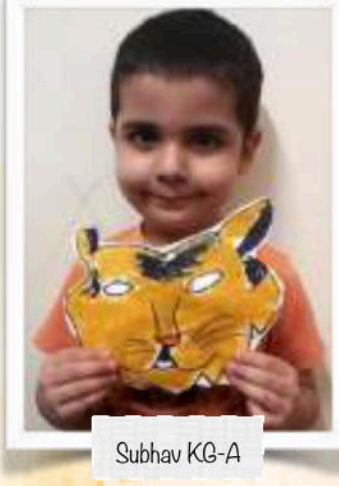

Save the king before they extinct....

What did you observe? What is combustion? Grade 8

Dhruv

i think that the flame went out because when maam covered the candle with a glass the flame got extinguished. This happened because there was a stop in the circulation of oxygen and because the flame burns when there is the presence of oxygen

Daksh khurana

The burning of fuel is called combustion.

Daksh khurana

I observed that when the glass is been kept on the candle than the candle's flame is automatically gone because the oxygen is gone out of the galss and it is not coming in.

Aryan

We observed that when mam lighted the candle the candle was burning but when mam covered the the candle with the class is stoped burning because there was no air going in the class that is why it stoped burning.
Combustion : Is the porcess of burning anything and in the process combustion heat and light is produced also for bruning you need air

Avantika

When the candle was lit, we observed that when the glass was brought on top of it, the flame went out. Fire needs oxygen to burn so when the glass was brought on top of the flame, the amount of oxygen on which the fire was burning decreased and the flame went out.

Combustion: *The process of burning something is called combustion. A combustible substance burns in the presence of oxygen and produces a flame with heat and light in the process.*

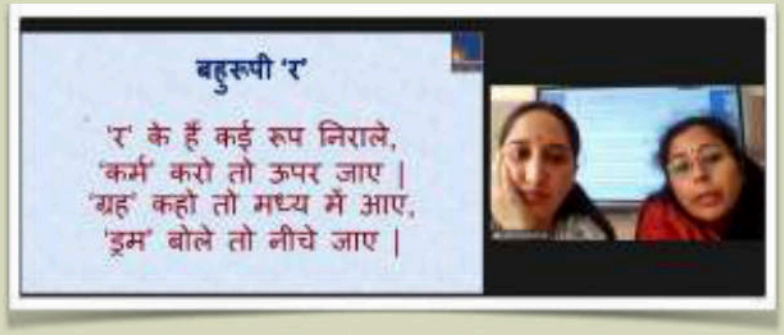

Dhruv

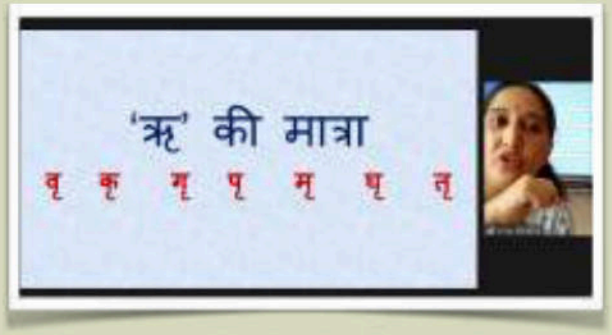

combustion is the process in which a combustable substance burns due to the presence of oxygen and because of that heat and light energy is created

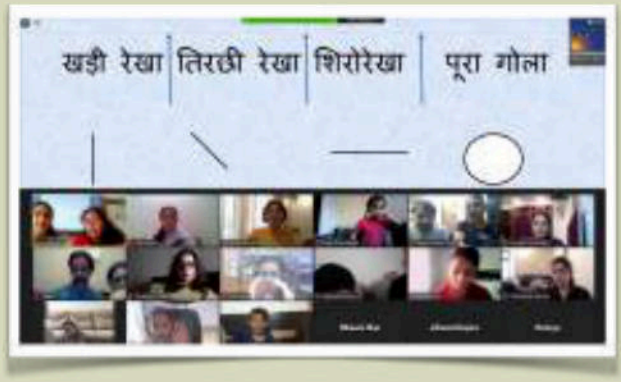

हिंदी कार्यशाला

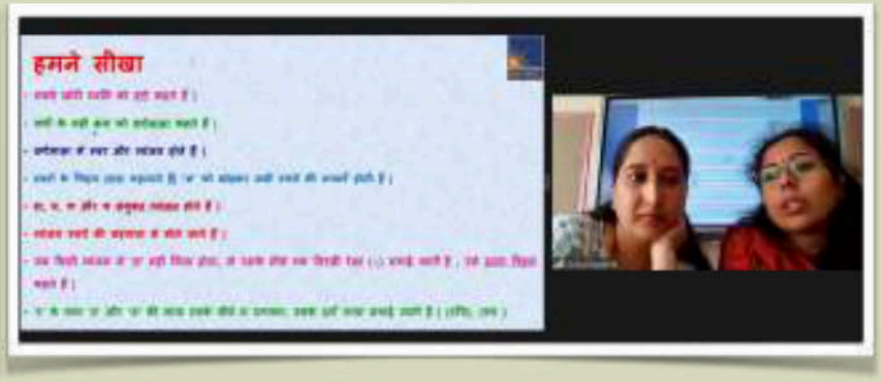

प्रारंभिक भाषा संबंधित ज्ञान को ध्यान में रखते हुए एम्बिएंस पब्लिक स्कूल, गुरुग्राम की ओर से अभिभावकों के लिए हिंदी कार्यशाला का आयोजन वर्चुअल रूप में किया गया | अभिभावकों को हिंदी भाषा के व्यावहारिक ज्ञान के साथ – साथ उसके सही प्रयोग के लिए नियमों का ज्ञान रोचक ढंग से दिया गया | जिसमें स्वर-व्यंजन और मात्राओं के शुद्ध उच्चारण से लेकर उनकी बनावट पर बातचीत की गई | सभी अभिभावकों द्वारा हिंदी कार्यशाला को सराहा गया |

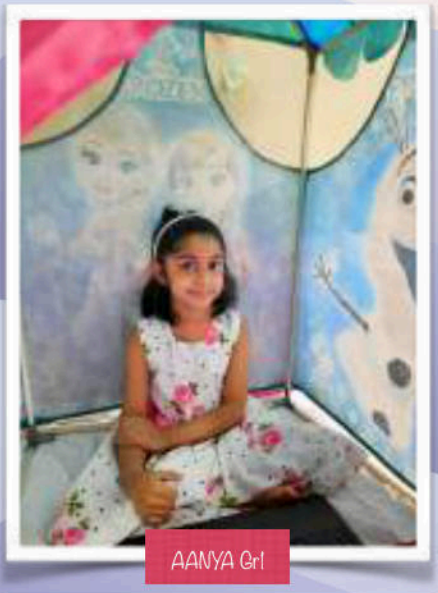

Write two things you have learnt in today's workshop.

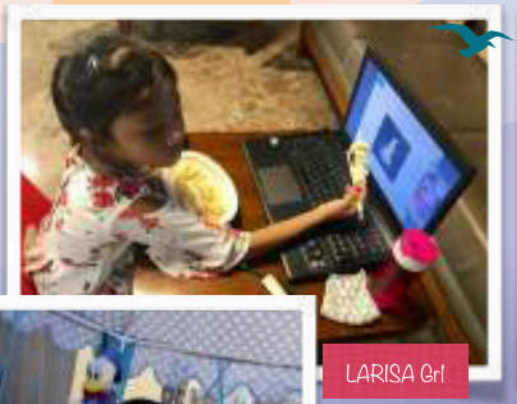

VIRTUAL CAMPING WEEK

A camp week was organised for Grades 1 & 2 learners to get the feel of outdoor learning during this unusual time.

WE THE FIFTH GRADERS

Aarav is a budding footballer, and he seldom hesitates to share his tiffin with us.

Armaan is a generous friend and bright too, never kicks up a fuss.

Hriday is full of courage, a passionate footballer and reliable too...

Ira, the humble soul, always stands by her friends, come rain or shine.

Jivika, the exuberant one, loves to participate in every activity that we can think of.

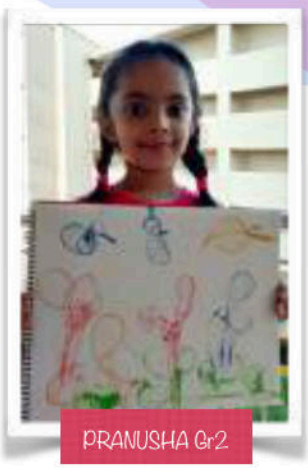

Kenisha is compassionate, energetic and a friend who's always by my side...

Kimaya's melodious songs, bring joy to our class and enliven the atmosphere.

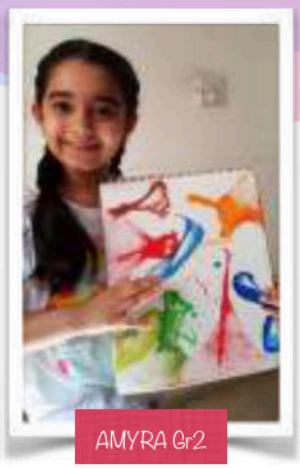

Navya is a brave heart, standing strong by my side, when I need her the most...

Vaanya is caring, soft-spoken and a good singer.
